// **HISTORY**

Journey to the farthest reaches of the galaxy and take command of an elite team of Confederate Marines in the Precursor Campaign. Whether you're new to real-time strategy games or a skilled veteran, you'll be faced by the challenge of leading your troops to victory over powerful and truly alien opponents. Can you restore peace to the fringe-world of Chau Sara?

// **AUTHOR NOTES**

I've redone the entire Loomings Campaign for the Terrans, and added in a few additions:

- It is playable as COOP, meaning 2 Players only! (If a player leaves, the game ends)
- It is playable in both Starcraft & Brood War. (Expansion settings are disabled)
- I added "Hardmode" (Difficulty) Trigger, for an extra added level of game play. Simply move any unit to the beacon at the Start of every game.
  (after 2 mins, Hardmodes are automatically disabled)
